

## National centre for family and whānau violence research and information

### Pānui | Newsletter - Issue 115 - November 2022

Kia ora!

It's hard to believe that we are already nearly half way through November – all of a sudden the end of the year seems to be approaching at warp speed and there is a diminishing number of weeks left to deal with a growing 'to do' list!

However, before we begin to wind down for 2022, we are delighted to let you know that we are bringing together a panel of experts for a webinar looking at the rights and needs of migrant victim-survivors of family violence in relation to immigration policies and practices.

We hope that you can take some time out of your busy schedule to join us online as we draw attention to how immigration status can be used as a tool for abuse and how immigration policies and practices in Aotearoa can create significant barriers for migrant victim-survivors of family violence when accessing help.

Check out our News Story about the webinar as well as a wealth of opportunities for training, learning and professional development listed in our 'Events' and 'What's new in the library' sections below.
